

### Module 3F3: Statistical Signal Processing Supervision Arrangements 2021/2022

The following list shows the allocation of students to supervisors. Supervisors will contact students directly to make the necessary arrangements for supervisions. Three supervisions should be scheduled during the Michaelmas term, starting after week 3 (21st October), with a fourth at the start of the Lent term. Students may request a fifth supervision at the start of the Easter term, for revision purposes, but this should be arranged **only** with the prior agreement of each student's Director of Studies.

Please contact the Division F administrator (div-f@eng.cam.ac.uk) or the module leader Prof Simon Godsill (sjg30@cam.ac.uk) if there are any queries.
